PROFESSIONAL SUMMARY

Software Developer with hands-on experience in building scalable MERN and React-based web applications focused on productivity, automation, and user-centric design. Skilled in Front-End Engineering, secure backend API development, database integration, and performance optimization. Strong foundation in Data Structures, REST architecture, and deployable full stack product development.

TECHNICAL SKILLS

- Languages : Java, JavaScript (ES6+), SQL
- Frontend : React.js, HTML5, CSS3, JavaScript, Tailwind CSS, Responsive Web Design, GSAP
- Backend : Node.js, Express.js, RESTful APIs, JWT Authentication
- Database : MongoDB, SQL, Supabase
- Tools & Platforms : Git, GitHub, VS Code, Postman, Vercel, Render, Railway
- Core Concepts : Data Structures & Algorithms, Object Oriented Programming, Database Management System

PROJECTS

ResCall – AI-Powered Resume Optimization Platform

[ResCall Link](#)

- Engineered a student-focused career readiness platform combining ATS-based resume analysis, keyword optimization and guided improvement recommendations.
- Integrated an AI-powered learning assistant enabling users to understand resume mistakes, interview concepts, and domain-specific preparation in real time.
- Focused on performance optimization and delivering actionable, context-aware resume enhancement suggestions.

StudyFlow – Intelligent Study Consistency Platform

[StudyFlow Link](#)

- Developed a live productivity-focused study management platform with Supabase backend, adaptive daily planning, and real-time streak tracking used by **80+ active** student learners.
- Integrated AI-powered instant concept explanation to support uninterrupted self-directed learning sessions.
- Designed engagement workflows that improved daily learner consistency, session depth, and repeat usage metrics.

TaskFlow – Collaborative Team Productivity Manager

[TaskFlow Link](#)

- Built a full-stack MERN collaboration platform enabling teams to create projects, assign tasks, and monitor workflow progress in real time.
- Implemented JWT authentication, protected REST APIs, MongoDB data modeling, and role-based task visibility across user roles.
- Developed responsive dashboards for status updates, productivity monitoring, and team accountability tracking.

EDUCATION

Bachelor of Technology – Computer Science & Engineering
Meerut Institute of Engineering and Technology

2022 – 2026
CGPA : 7.95

Higher Secondary – CBSE
L.T.R Public School

PCM : 89%

CERTIFICATIONS AND COURSES

- **Data Structures & Algorithms Specialization** – Alpha Batch (Solved over 150+ problems on algorithm optimization)
- **Web Development Bootcamp** – Front-End Domination (Gained hands-on experience in front-end web development using HTML, CSS, JavaScript, React.js, API handling, Tailwind CSS, GSAP, Locomotive)
